

THE SCHEDULE

[See section 3(f)]

DESCRIPTION OF RAJGHAT DAM

The Dam is to be built across the Betwa river about one furlong upstream of Lalitpur Chanderi Causeway at Rajghat on the river Betwa, District Lalitpur of Uttar Pradesh. The Dam will comprise a masonry section in the river bed and earthen flanks on both sides. It will also include the earth dam to be constructed in the saddles on either side for creating a reservoir.
