*SECTION II : NON-STATUTORY RULES*

1. For all administrative purposes, the Medical Officer is subordinate to the Superintendent of the prison except as regards the medical treatment of the sick. He shall have a free hand in the medical treatment of the inmates of the Hospital whether sick or convalescent or under observation, subject to Jail discipline. He is under the general control of the I. G. of prisons.

2. All Medical Officers and Medical staff solely employed in the Jail Department are debarred from private practice. (*Vide* G. R., H. D., No. 8944, dated the 30th January, 1926).

3. The Medical Officers shall advise the Superintendent as to the means to be taken for the protection of prisoners from cold, wet or sun.

4. Whenever the mortality of the prison during a month exceeds one per cent per annum, the Medical Officer shall record in the monthly sick return an explanation of the cause of such excess of mortality. In cases of unusual mortality he shall make a special report on the subject for transmission to the Government, through the Regional Deputy Inspector General and the Inspector General of Prisons.

5. In treating weak, convalescent and old prisoners, the following points shall be noted:—

(a) They should form a separate class apart from the other prisoners.

(b) They should be allowed extra clothing and bedding, if considered necessary.

(c) Extra and/or varied diet may be prescribed for them, if considered necessary.

(d) Suitable arrangements should be made to ensure that the old prisoners particularly have easy access to urinals during the night.

6. Every prisoner shall be weighed regularly every alternate Sunday, in the presence of the Medical Officer or the M. M. S. Officer who shall personally record the weights in a Register specially kept by him for the purpose. The weighment should take place before the morning meal and the prisoner should wear trousers only. Deductions should be made on account of fetters at the rate of 2.260 Kgs. and 1.360 Kgs. for bar and chain fetters respectively. The Medical Officer shall prescribe such treatment to prisoners as he considers necessary on account of undue loss of weight.

7. The Medical Officers shall from time to time examine the prisoners while at work and issue such instructions as he may think necessary regarding the change of labour of prisoners. Prisoners whose labour has been so changed shall not be shifted back until the receipt of further instructions from the Medical Officer regarding his fitness.

8. Opium is not to be given to a prisoner except on the written orders of the Medical Officer.

9. The Medical Officer shall apply to the Superintendent for Convict hospital attendants whenever he requires them. In the event of a prisoner who is seriously ill in prison, having a relative also in prison, the latter may be allowed, at the discretion of the Superintendent to attend on the patient.

10. When necessary the Medical Officer may call in a lady doctor in Government service to attend female prisoners:—

(a) Such lady doctors are not entitled to fees but they should be given conveyance charges to the extent necessary. Where lady doctor in Government service are not available the lady doctors employed in the Dufferin Fund and other Municipal and Local Board Institutions should be called in and paid fees in accordance with the following scale:—

(1) *By Day.*

Medical Officers of the Women's service and Medical Women with English Qualifications—Rs. 16 plus conveyance charges.

Lady doctors holding the degree of M. B. B. S.—Rs. 8 plus conveyance charges.

Lady doctors holding diploma of L. C. P. S.—Rs. 4 plus conveyance charges.

(2) *By night.*

Double the above rates.

(b) Where no such lady doctors as mentioned in paragraph (a) above are available other lady medical practitioners should be called in when necessary and should be allowed such fees as the Superintendent of Jail considers reasonable.

(c) The cost on account of such fees and conveyance charges is debitable to "Medical and Hospital equipment" and "Current Office expenses" respectively.

*Note* :—The rule is not applicable to women prisoners in Yeravda Women's Prison. (*Vide* G. L., H. D. No. 9685/2-III, dated 24th October 1934).

11. The Medical Officer shall be responsible that every prisoner, transferred or removed for any purpose, is in a fit state to undertake the journey required of him, and shall certify at the foot of the nominal roll that the prisoners are fit for transfer. He shall see that sick prisoners are provided with proper diet for the journey.

12. All prisoners complaining of illness shall be brought before the Medical Officer and shall be examined by him, and he shall determine whether they shall be detained under observation, treated outside the hospital, placed on the convalescent gang, or admitted into hospital. If he thinks none of these courses is necessary, he may make any recommendations in writing as to the prisoner's labour or diet in Register No. 32, which shall be laid before the Superintendent for information and orders. (Government letter, Judicial Department, No. 4798, dated the 30th August 1892).

13. In the absence of the Medical Officer, the Maharashtra Medical Service Officer may admit prisoners into hospital bringing them before the Medical Officer on his next visit. Any order passed By the M. O. as to a prisoner's labour or diet shall be entered in the latter's history ticket.

14. All border line cases (*i. e.* cases which are not fit to be sent to the Mental Hospital but which show signs of mental disorder) of prisoners suffering from mental disorders shall be concentrated in the Yeravda Central Prison and Nagpur Central Prison. (Government Letter, Judicial Department No. 4798, dated the 30th August 1892).

15. The Superintendent shall in consultation with the Medical Officer, detail a sufficient number of well behaved prisoners to perform the mental duties of the hospital. Prisoners so detailed shall be under the immediate orders of the Medical Officer, and shall perform such duties as he may require of them.

16. In each Jail specially selected intelligent prisoners shall be trained in nursing by the Medical staff and shall not be transferred from the hospital to other work except on account of misconduct and with the concurrence of the Medical Officer.

17. When a prisoner is admitted to the Jail Hospital and placed under the treatment of the Medical Officer, all medicines including patent medicines, extra or special diet and clothing should be supplied to him at Government expense to ensure his speedy recovery. It is not however, necessary to give special medical treatment to the patient prisoners with costly special drugs like streptomycine, chloromycine, etc. when they can be cured with ordinary medicines even though the period in which they will be cured will be slight longer. If a patient prisoner is desirous of having treatment with special and costly drugs at his own cost he should be given every facility to purchase them, provided the Medical Officer consider it necessary in the interest of the health of the prisoner. In exceptional cases however of the Medical Officer considers that but for the treatment with special drugs the disease from which a particular prisoner is suffering is likely to prove fatal, the Medical Officer may supply special drugs to the prisoner in the prison Hospital. The same rule should also apply when the patient prisoner is transferred to the local Civil Hospital for treatment. In any particular case, however, if the Civil Surgeon considers that treatment, with drugs is indispensable, the patient prisoner may be so treated and the expenditure on the treatment met from the regular grants at the disposal of the Civil Hospital or the Poor Fund or the Hospital Maintenance Fund.

In the case of prisoners, who are accustomed to a particular type of food or patent medicines, etc. but who are not admitted to the Hospital and placed under treatment, the Medical Officer, may if he considers that particular type of food or medicine is essential for the normal maintenance of health of such prisoners, allow them to be supplied at the prisoner's own cost. (Government letter, Home Department, No. 5399/5-C, dated 27th November 1948 and 2209/7-C, dated the 19th June 1953.)

18. If a case in Jail hospital does not respond to treatment within a reasonable time or when the Medical Officer is not certain about the diagnosis he should consult Civil Surgeon of the District. (Inspector General's Circular No. 180, dated the 29th July 1938).

19. (1) In cases where the Medical Officer considers x-ray or any other examination for diagnosis is necessary which is not available in the local civil or other Government aided hospital, a report in the matter should be made to the Regional Deputy Inspector General of Prisons by the Superintendents of District Prison and to I. G. by the Superintendents of Central Prisons.

(2) Prisoners should be removed to the Hospital Prison, Bombay after obtaining orders of the I. G. In emergent cases, however, the Superintendent may on his own accord remove a prisoner to the Hospital Prison, Bombay and approach the I. G. for approving his action. (Inspector General's Circular No. 180, dated the 29th July, 1938).

20. Prisoners, who are desirous of having extra medical facilities in respect of diet or clothing in addition to those provided for in the Jail Hospitals, may be allowed to supplement them at their own cost, provided the Medical Officer considers it necessary in the interest of the health of the prisoner. (Government letter, Home Department No. 5410/5-C, dated the 5th September 1949).

21. Prisoners who want dental treatment over and above what is available in the adjacent Civil Hospitals, may be allowed to have it at their own cost. (Government letter, H. D. No. 5410/5-C, dated the 5th September 1949).

22. When the Medical Officer is of opinion that the removal of a sick prisoner to another prison is absolutely necessary to save his life and is likely to lead to his recovery, he shall submit a brief statement of the case to the Superintendent, and point out the prison to which he considers a transfer desirable. The Superintendent shall submit the recommendation for orders to the Regional Deputy Inspector General of Prisons in respect of District Prisons and to the I. G. of Prisons in respect of Central Prisons.

*Note.*—If any prisoner transferred for the benefit of his health dies, within three months after his arrival, of the disease on account of which he was transferred, his death shall be borne on the returns of the transferring prison, but if during such 3 months he dies of a different disease or dies subsequent to such 3 months of the disease on account of which he was transferred, his death shall be included in the returns of the prison wherein he dies. In the former case, his admission shall not be included in the statistics of the receiving prison nor his transfer in the statistics of the despatching prison.

23. The Chief epidemic diseases which are likely to occur in Prisons are :—

Cholera, Diarrhoea, Small-pox, Cerebrospinal meningitis, influenza, relapsing fever, dysentery, pneumonia, Plague, beri-beri, mumps, measles and scurvy. The Superintendent shall enforce all preventive measures in consultation with the Medical Officer.

24. If within a week after the first case of Cholera, cerebrospinal, meningitis or plague has shown itself in a prison, two or more cases occur, it shall be considered that the disease has assumed an epidemic form and information shall at once be sent to the Inspector General, the Regional Dy. I. G. of Prisons and the neighbouring Prisons, if necessary.

25. In the event of epidemic disease being present in the vicinity of a prison, care shall be taken, as far as possible, to prevent any communication taking place between the inmates of the prison and the infected locality.

26. More than the ordinary attention shall be paid to all the usual conservancy arrangements of the Prison, and the Medical Officer shall recommend such alterations in the prison diet as may be calculated to guard prisoners from liability to the attacks of epidemic diseases. As few sick as possible ought to be collected in the Jail hospital, all trifling ailments being treated in barracks.

27. If any epidemic disease is present in the district, care shall be taken that all prisoners received from such districts are carefully examined and made to wash themselves and their clothing thoroughly, disinfected on admission into prison. They shall then be rigorously segregated for a period of not less than ten days in such manner as the Medical Officer may deem proper. The assistance of the district authorities should be asked with a view to all prisoners being admitted sufficiently early in the day to allow washing and disinfection on the same day.

28. For every prison, one or more camping grounds, sufficient to accommodate the usual total population with guards, shall be selected. The selection shall not be left till an epidemic actually occurs. The Superintendent shall select these camping grounds in communication with the District Magistrate and the Medical Officer.

29. Every camping ground shall be selected so as to comply, as far as possible with the following conditions; its exact accommodation shall be ascertained by measurement, and in making the selections special attention shall be paid to its state during the rains:—

(a) It shall be easy to access and not nearer than two miles to any military cantonment or than one mile to any Civil station or town.

- (b) It shall not be on any great lines of communication.
- (c) The ground shall be high and well drained.
- (d) There shall be a good supply of drinking water.
- (e) There shall be no rank vegetation, and thick tops of trees must be avoided.
- (f) The distance of the camping ground from the prison shall not ordinarily exceed five miles without Inspector General's permission.

30. When a removal into camp becomes probable the Superintendent and Medical Officer shall inspect the ground afresh and satisfy themselves that it is really available and in order.

31. It is desirable that every prison, where a site is available shall be provided with two permanent isolation sheds built outside the prison walls. On the first occurrence of a case of cholera, plague, cerebro-spinal meningitis or suspicious diarrhoea, the patient shall not be taken to hospital but shall be immediately removed out of the prison at one of these sheds while in the other shed all attendants sweepers etc. looking after the case shall be strictly isolated and shall on no pretext, be allowed to enter the prison or communicate with other prisoners until all risk of infections is over.

32. The utmost care must be taken that all prisoners employed in cleaning a ward in which a case of epidemic diarrhoea, cholera, or plague has occurred or who have been in contact with the patient after the first symptoms have appeared, are retained under medical observations in a separate building, where available, in a manner that shall effectually prevent their mingling, on any pretext with other prisoners who have not been so employed, special care being taken that they are bathed and fed apart, and their excreta are separately collected and are disinfected before removal, and that their clothing are thoroughly disinfected before they are again allowed to mix with other prisoners.

33. These disinfecting parties shall, as far as possible be selected from among those prisoners who have been confined in the same ward or barracks as that in which the case of epidemic disease has appeared.

34. If an epidemic of any of the diseases named in rule 23 especially cholera, becomes severe, all or a part only of the prisoners may be moved from the prison either to any place on the prison premises or to the prison

camping ground. The Medical Officer shall decide, after consulting the Superintendent, when it is necessary to move the prisoners from the prison, provided that if the Superintendent does not agree with Medical Officer's decision he shall before acting on it, refer the question for the orders of the Inspector General by telegram. Similarly, if the Superintendent and Medical Officer disagree as to whether they shall to move to the prison camping ground or to any place on prison premises, the question of issue shall be referred to the Inspector General by telegram. In any case in which any removal of prisoners is determined, the fact shall be at once reported to the Inspector General by telegram. When the prisoners are being moved out of the prison, the District Magistrate and Police authorities should be communicated with, so that any extra guard of Police, if required for the camp, may be in readiness.

35. The evacuation of a whole prison involves large expenditure and disturbance of discipline and labour. It should not therefore be resorted to except with Inspector General's sanction. If the monsoon is in progress, prompt reduction of the Jail population by removal of a portion of the prisoners into camp may be attempted as it allows the infected wards to be vacated and cleansed.

36. When the tents provided at the prison are insufficient for the accommodation of the prisoners, application shall be made by telegram to the Inspector General, and if more tents are not procurable, huts shall be put up for the shelter of the prisoners. The tents, after the camp is closed, shall be allowed to stand for few days, during which they shall be thoroughly disinfected.

37. Where prisoners are moved into camp dry straw may be provided for them to sleep on and cots for the sick.

38. In camp there shall be two detached hospitals one after the treatment of miscellaneous cases, and the other for the treatment of epidemic cases. These shall be to the leeward of, and some distance from the camp.

39. Careful attention shall be paid to the conservancy of the camp and the trenches shall be dug every day to the leeward of the position. The prisoners and all others connected with the camp shall be made to resort to these trenches for the purposes of nature. These trenches shall be covered over with earth every evening.

40. No one but prison officials, of those having the Superintendent's pass, shall be allowed to enter a camp. The boundary of a camp can be effectively marked by a ditch 15 cms. deep and 46 cms. wide; the earth from this being all heaped up outside. By these means a sharp, well defined shadow is thrown which at night assists the sentry in detecting any one crossing the boundary. In place of the trench a fence of thorny bushes, if available may be constructed.

41. If the disease continues unabated in frequency and virulence after the removal of the prisoners, it will be advisable to shift the camping ground.

42. Where epidemic disease has broken out in a prison and it may not be considered desirable to remove the prisoners into camp, the following precautions shall be observed in the prison during the prevalence of the disease:—

(a) The barrack in which a case occurs shall be immediately vacated, other accommodation being found for the inmates, who shall be kept together, and on no account be distributed amongst the other prisoners. The vacated barrack shall be thoroughly and carefully disinfected, the disinfection being carried out if possible by the prisoners who occupied the barrack.

(b) The condition of every prisoner shall be carefully watched, as the earlier a patient is treated the greater is the chance of his or her recovery. During the night enquiries as to the health of the inmates of each barrack shall be made by the sentries every hour, and any persons attacked by premonitory symptoms shall be immediately removed for treatment. Convict Officers shall be required to report at once any sign of sickness, and a prisoner visiting the latrine oftener than usual shall be placed under observation.

(c) The most scrupulous attention shall be paid to the latrines and every detail connected with "dry earth conservancy" shall be most carefully and continuously enforced. Should any latrine have been used by a prisoner suffering from cholera or epidemic dysentery or diarrhoea the latrine shall be closed and disinfected; all pans if of earth, broken and buried or burnt, if of iron disinfected with fire or strong disinfectant solution, exposed to the sun, and tarred.

(d) A wood fire shall be burned in each ward or cell, the doors and windows being closed for a short period.

(c) All overcrowding shall be far as possible be strictly avoided both in the hospital barracks and cells. If the epidemic be severe it may be desirable to give up the hospital to epidemic cases, removing all other cases to any temporary hospital that can be improvised in a ward or workshed, should there be no better place available. Slight cases of colic or ordinary diarrhoea should also be treated separately and not admitted to hospital until the characteristic symptoms of cholera have appeared.

(f) Those parts of the hospital floors which are liable to be soiled may be sprinkled with ashes, saw-dust or fine sand. All discharges shall immediately be carried away, and any portion of the floor which is soiled shall be at once cleaned and thoroughly wetted with strong solution of carbolic acid, or per-chloride or mercury.

(g) During epidemic disease if the water supply is not absolutely free from suspicion, special attention shall be paid to the chlorination of all drinking water.

(h) If necessary the number of sweepers shall be increased, and, if there are not sufficient prisoners available for conservancy duty, the extra number required shall be engaged from outside. The convict sweepers and attendants on patients may be encouraged in their work by a small daily allowance of tobacco or some inexpensive change of diet or increase in the rates of wages. All reasonable charges which it may appear necessary to incur in carrying out these rules, will be passed by the Inspector General.

(i) Work in the factory shall be relaxed, but not discontinued entirely. The prisoners, if in camp, shall be employed in cleaning and levelling the ground and other easy labour. A midday rest for more than the prescribed hours shall be allowed, if considered essential by the Medical Officer.

(j) If for ten clear days no fresh case has occurred either in camp or in the prison, and the prescribed purification of the latter has been completed, the prisoners may return to it.

(k) Before the prisoners return, the whole of the clothing and bedding shall be boiled for 10 minutes or disinfected by steam if a disinfectant is available.

(l) The dejecta of a patient suffering from Cholera shall be received in a vessel containing some disinfectant and be immediately buried or burnt.

(m) On the recovery or death of a patient suffering from a dangerous infectious disease, the clothing and bedding shall be immediately burnt.

(n) The prison officials and their quarters shall be attended to in every respect according to the rules laid down for the protection of prisoners.

(o) Cases occurring amongst the women prisoners are to form no exception to these rules.

(p) The body of a prisoner who has died of a highly infectious disease shall be entirely wrapped in a sheet saturated with a strong disinfectant e. g. one part perchloride of mercury in 500 parts of water and buried or burnt with the least possible delay.

(q) Whenever epidemic sickness prevails in a prison a return in Jail Form No. 93 shall be submitted daily to the Inspector General. On this return the Medical Officer shall briefly note the measures he is taking to arrest the epidemic, and any information -he may consider of importance. The return shall be discontinued when the attacks have ceased. The outbreak shall also be reported to the Chief Sanitary Officer of the district.

(r) An outbreak of epidemic disease shall be reported immediately to the Director of Public Health by the Medical Officer through the Superintendent.

43. When it is clearly apparent that plague or cholera is established in an epidemic form in a Jail or in the surrounding districts inoculation (on Professor Hafkin's system) shall be resorted to without delay in consultation with the Director of Public Health or his local representative.

44. If there is any reason to think that the clothing of any Jail guard or prison official is likely to have been polluted by any cholera discharge it shall at once be withdrawn from use and disinfected.

45. In each Central, Special and District Prison there shall always be a squad of 5 to 10 prisoners and Convict Officers specially trained by the Medical Officer to take preventive measures against the spread of epidemics. The squad should be used for taking the preventive measures as soon as there is a reasonable apprehension of an epidemic spreading in the Jail.

46. All Jail employees and their families residing in prison quarters must be vaccinated.

47. Any undertrial prisoner or a convict suffering from leprosy, whose segregation the Medical Officer recommends, shall be segregated from all other prisoners, a cell, ward or temporary shed being set apart for the purpose, care shall be taken that such confinement is not solitary. The prisoner shall see and may converse with other prisoners and, if he is a convict sentenced to rigorous imprisonment, he shall not be given any work which is likely to be handled by others.

48. Prisoners suffering from leprosy shall as far as possible be housed in the prisons classified for confinement of leper prisoners. When a convict suffering from leprosy is admitted in any prison other than that which is classified for confinement of leper prisoners, his Nominal Roll shall be submitted to the I. G. together with a request mentioning in brief the medical case, the type and stage of the disease and the opinion of the M. O. regarding the desirability of removing him to a leper ward.

49. Cells or wards which have been occupied by lepers shall be limewashed and thoroughly cleansed before any other prisoner is confined in them. The prison clothing used by a released leper shall either be disinfected or destroyed, as may be recommended by the Medical Officer.

50. When a prisoner suffering from leprosy is travelling by rail, due notice of the fact shall be given to the Railway authorities.

certain cases.

1. The Inspector General is authorised to sanction expenditure from the discretionary grant annually placed at his disposal for new minor works and additions and alterations to Prison buildings to an amount not exceeding Rs. 10,000 (which limit has been temporarily raised to Rs. 20,000) for any one work subject to the provisions of Rule 260 of Bombay Public Works Department Manual, Volume I. In the case of new residential buildings the sanction of Government is necessary subject to the Item No. 22 of the Bombay Financial Publication No. VII.

2. Powers delegated to the Inspector General in respect of matters dealt with in the Bombay Public Works Department Manual have been specified in Serial Nos. 8 and 17 of Appendix XXVII of the Bombay Public Works Department Manual, Volume II (1940 Edition) and Item No. 22 of Financial publication No. VII.

3. The item “work”, when it is used by itself denotes its comprehensive application. It applies not only to works of construction of repair but also other individual items of expenditure, connected with the supply, repair and carriage of tools and plant or the supply or manufacture of stores or the operations of workshops.

4. The term “Original Works” indicates new construction whether of entirely new works or of additions and alterations to existing works or of repairs to newly purchased or previously abandoned buildings increasing the cost of the property in question.

5. The term “repairs” includes primarily operations undertaken to maintain in proper condition buildings and works in use.

6. It also includes works of remodelling or reconstruction which do not add to the original cost of the building.

7. *Repairs are of three kinds* :—(a) Those which as a matter of regulation are carried out periodically i. e. painting and white-washing. Repairs.

(b) Those which are not done as a matter of regulation periodically but which it is convenient to carry out so far as far as may be necessary at the time of periodical repairs.

(c) Such occasional or petty repairs as become necessary from time to time and which may have to be carried out between the times of periodical repairs.

Provision for repairs mentioned in (a) and (b) above should be made in the Annual Budget Estimates by Buildings and Communications Department and for the third kind in separate requisition as the occasion may require.

8. “Major Works” means an original work the estimated cost of which exclusive of departmental charges, exceeds Rs. 10,000 (which limit has been temporarily raised to Rs. 20,000). “Minor work” means an original work the estimated cost of which, exclusive of departmental charges, does not exceed Rs. 10,000 (which limit has been temporarily raised to Rs. 20,000). These minor works are financed from the discretionary grants placed at the disposal of the Inspector General and executed subject to the provisions of rule 234 and Sr. No. 17 in Appendix XXVII of Bombay Public Works Department Manuals Volume-I and II respectively. Major and Minor Works.

9. For every work (excluding repairs and petty works) initiated by or connected with the requirements of the Prison Department it is necessary to obtain the concurrence, i. e. administrative approval of Government in the Administrative approval to works.

Home Department, or the Inspector General of Prisons or the Deputy Inspector General of Prisons (Regional) as the case may be, to the proposals before the technical sanction (i. e. sanction to the detailed estimate) to the work is accorded by the competent authority in the Buildings and Communications Department *vide*, paragraph 130 of the Bombay Public Works Department Manual, Volume I. The list of competent authorities who can accord technical sanction is given at serial No. 7 in Appendix XXVII of the Bombay Public Works Department Manual, Volume II.

10. This procedure should also apply to modifications of the proposals originally approved by Government in Home Department or the Inspector General of Prisons, or the Deputy Inspector General of Prisons (Regional), as the case may be, if likely to necessitate eventual submission of a revised estimate, to material deviations from the original proposals, even though the cost of the same may possibly be covered by savings on other items, and to cases where the detailed estimates when prepared exceed the amount administratively approved by more than 10 per cent. In these cases as also in cases when the expenditure on a work exceeds or is found likely to exceed the amount administratively approved for it by more than 10 per cent should be obtained from Inspector General. Provided that in cases in which the expenditure on a work exceeds or is found likely to exceed the amount administratively approved for it by more than Rs. 10,000 the revised administrative approval of Government in Home Department should be obtained. In the case of modifications during construction revised administrative approval of the competent authority should be obtained without awaiting the preparation of detailed supplementary or revised estimate.

11. The administrative approval to a work or the technical sanction to an estimate for such work will ordinarily cease to operate after a period of five years from the date from which such approval or sanction was accorded, *vide* Rule 239 of Bombay Public Works Department Manual, Volume I (1940 Edition).

Construction of  
petty works.

12. The Buildings and Communication Department shall be entirely responsible for the construction of petty works in connection with the prison Buildings, and current repairs, special repairs etc. shall also be carried out by that Department from the grants under the head 50, Civil Works State:

(a) All petty works of the nature of the construction of or repairs to water channels in the garden and of temporary sheds for cattle shall be carried out and financed by the Jail Department from the grants provided for under “256-Jails”

(b) Convict labour both skilled and unskilled shall be utilised by the Buildings and Communications Department wherever available and possible, in carrying out original works and repairs, etc., to jails and paid for by credit to the jail Department.

13. The Sub-Divisional Officer must see that all Prison rules are strictly observed when introducing free labour for work inside the Prison.

Prison Rules to be observed when free labour is introduced inside the Prison.

14. Orders for the commencement of any work should always be given in writing after detailed plans and estimates have been sanctioned by the competent authority and allotment of funds has been made by the Inspector General. Rules Nos. 234, 235 and 237 of the Bombay Public Works Department Manual, Volume I should be referred to for further details.

Orders for commencement of work.

15. (i) On the completion of the work, a completion certificate in Public Works Department Standard Form No. 561 E should be forwarded by the Executive Engineer or other Official concerned of the Buildings and Communications Department to the Superintendent who should sign it if the work is carried out satisfactorily or else should pass thereon whatever remarks he considers necessary. The completion certificate should then be sent by him to the Inspector General for countersignature.

Completion Certificate to be signed by the Superintendent and countersigned by the Inspector General.

Note :—The completion certificate in the case of petty works and repairs should be endorsed on the requisition (Public Works Account Form No. 32 Public Works Department Standard Forms Nos. 416 and 417) no separate certificate being required in such cases.

(ii) The counter-signature of the Inspector General on completion certificate implies that the work has been completed and taken over by Prison authorities and on the requisition implies that the building or work is generally in proper order and the countersignature involves, no further responsibilities, *vide* Rule 289 of Bombay Public Works Department Manual, Volume-I (1940-Edition).

16. Use of latrines by prisoners during all hours of the day shall be discouraged as such visits are likely to encourage idleness and necessary conversation between the prisoners.

Use of latrines during day to be discouraged.

17. If practicable, all prisoners on extra mural work should obtain their supply of drinking water, during working hours, from the same source as the other prisoners.

If any of the vacancies reserved for the members of a particular section of the Backward Class cannot be filled by the appointment of members of that section for want of suitable candidates, they should be filled by the

appointment of members of other sections of Backward Class, if such candidates are available and if no such candidates are available, by others *i. e.* by the members of non-Backward Class. These vacancies *i. e.* the vacancies which are filled otherwise than by the appointment of candidates belonging to the particular section of the Backward Class should, however, be carried forward and added to the vacancies reserved for the particular section (*i. e.* the section for which they were initially reserved) on the next occasion when vacancies are filled. Such vacancies should not be carried forward in this manner for more than two years and that the total number of normal reserved vacancies and the carried forward vacancies together should not exceed 45 per cent of the total number of vacancies on any occasion of recruitment. The surplus above 45 per cent should be carried forward to the subsequent occasions of recruitment subject, however, to the condition that the vacancies are not carried forward for more than two years.

All appointing authorities should take particular care to see that these orders making reservation in favour of members of the Backward Class in the various services are followed scrupulously.

This certificate should, outside Greater Bombay, be issued by the District Magistrate or by an Executive Magistrate authorised by him in this behalf, and in Greater Bombay by the Chief Metropolitan Magistrate or by a Metropolitan Magistrate as authorised by him.

3. (i) Whenever recruitment to a particular post or class of posts is undertaken the number of posts to be reserved for members of the Backward Class should be determined in advance and invariably be mentioned in the advertisement;

Mode of filling up reserved posts.

(ii) If it is found that an adequate number of candidates belonging to the Backward Class is not available if the general standard of selection is strictly enforced, the standard of selection should be lowered in favour of members of that class and candidates who are generally considered suitable and conform to the minimum standard for appointment may be selected; such selected candidates should be given to understand that their appointment is on trial and that they would not be confirmed unless they are found suitable and come up to the required standards.

Doubtfull Certificate of Backward Class.	4. Inspector General, the Dy. Inspector General of Prisons and/or Superintendents should report cases in which they have any doubt, to Government in the General Administration Department which will decide whether or not the certificate is correct.

When it is anticipated that an officer in the Jail Department is likely to continue to officiate in a service or a post which is within the purview of the Commission, and to which he was appointed as a temporary measure without consulting the Maharashtra Public Service Commission, for a period exceeding 12 months, the necessary steps should be taken in good time to report his case to Government with his record of service and confidential sheet.
Preference to be given to N.C.C.	7. So far as direct recruitment to non-gazetted executive posts in the Jail Department is concerned preference should be given to candidates who have acquired training and experience in the National Cadet Corps other qualifications being equal.

*Rule 34 :* As a precaution against the inadvertent re-employment of men who may have been dismissed, Inspector General or the Superintendent should ascertain whether an applicant for a post has been in Government service, and should refer to his previous employer if the circumstances connected with his discharge are not clear. *Rule 35 :* (i) When it is considered necessary because of his misconduct or unsuitability, to terminate the service of a temporary employee who has not been appointed for a definite period, his services should be merely terminated by giving two months' notice, irrespective of whether he has or has not signed the undertaking prescribed by Government Circular Memo. *Rule 36 :* The expediency of inviting a Jail employee who is eligible for retiring pension and who has a long record of unsatisfactory service to retire should rarely be adopted. Pensions are liable to reduction. the procedure prescribed for imposing the punishment of reduction for effecting such reversion. Therefore in cases where an officer who is officiating in a higher post is to be reverted to his substantive post whether on grounds of discipline or unsuitability no departmental enquiry is necessary. The Maharashtra Public Service Commission should be consulted only if the reversion is by way of penalty and not if it is on the ground of unsuitability or unfitness.

record.

11. (i) Whenever await cases are closed, they should be taken out from await files and kept separately. The closed files which are kept for day-to-day references should also be kept in this folio. The official concerned should see that closed files and closed registers which are not required of and on for reference purposes are sent to the record room in accordance with the detailed instructions given in the A. B. C. D. list. This will give enough space for arranging current files on his table and also facilitate arrangement of the current jail registers. A list of closed files, papers and registers sent to the record room should be maintained in prison office.

(ii) "D" class papers should be kept with the clerks, jailors or other officials concerned for a period of one year, arranged in separate bundle for each month. These papers should not be sent to the record room but destroyed as per standing orders after a period of one year.

12. (i) The calendar of returns and other periodicals to be prepared and sent by the jails to the offices of the Deputy Inspector General and Inspector General of Prisons is given in appendix-V. The Superintendent should ensure that the returns and other periodicals are prepared and sent to the authority concerned on the due dates.

(ii) A list of the periodical returns to be submitted by each jailor and clerk with the dates on which they are due for submission, shall be placed on the table of the Superintendent and copies thereof (one each) on the tables of the senior jailor and head clerk who shall see that the returns are submitted on the due dates. If the submission of any of the returns is delayed beyond the due dates the explanation of the clerk responsible for the delay shall be obtained and submitted to the Regional Deputy Inspector General or the Inspector General of prisons with the remarks of the Superintendent thereon.

(iii) The registers, mentioned in column 2 of Appendix-VI should be maintained and checked punctually in the manner indicated in columns 3 and 5 of the said appendix by the concerned members of the ministerial and executive establishments as the case may be.

(iv) The Superintendent as head of the institution, is responsible for the proper maintenance of all the registers and records which will be attended to as laid down in sub-clause (iii) above. He should, therefore, exercise a surprise check at intervals and ensure that there is no default either in the maintenance or in the checking of those registers. Defaults, if

any, noticed at the time of such surprise checks, should be properly dealt with.

13. (i) The Superintendent should ensure that the office work and registers are always kept up to date. He should inspect the registers and other records, in the last week of every month and ensure that the registers and other records are maintained correctly and regularly by the officials concerned and that they are carefully scrutinized and signed punctually by the authorities concerned. He should take prompt action to set right the defects and mistakes of commissions and omissions if any, are noticed in his monthly inspection of the prison office. He should simultaneously obtain explanation of the party or parties responsible for the defects and mistakes which should be sent to the— Regional Deputy Inspector General of Prisons or the Inspector General of Prisons, as the case may be together with his own remarks thereon for initiating disciplinary action against the defaulting party or parties concerned.

(ii) In the first week of January, April, July and October a report on the findings of the monthly inspection should be sent to the Regional Deputy Inspector General of Prisons by the Superintendents of District Prisons and by the Principal of the Borstal School and to the Inspector General of Prisons by the Superintendents of Central Prisons, Principal, Jail Officers' Training School and by the Regional Deputy Inspectors General of Prisons. These quarterly reports should cover the following points:—

(a) Whether the registers are written correctly and regularly according to the prescribed schedule.

(b) Whether the entries in the registers are carefully checked and scrutinized and signed regularly by the authorities concerned.

(c) Whether the returns and other periodicals are compiled correctly according to the standing orders on the subject and sent to the authorities concerned on due dates of submission.

(d) Whether standing order files are maintained properly and kept up to date by the official concerned.

(e) Whether the current office record is properly preserved.

(f) Whether destruction of the old record is done according to the period prescribed in the A. B. C. D. list of records.

4. In ascertaining a prisoner's character the Superintendent, shall be guided by any particulars regarding the nature and circumstances of the crime, or the previous character of the prisoner, furnished to him by the convicting officer. If such particulars be insufficient, he may place himself in communication with the police officers. It is of great importance that the Superintendent should know, as much as possible, about the previous career and antecedents of his prisoners.

5. The Senior Jailor and the Jailor in charge of judicial work shall be held personally responsible for the correctness of the entries in both the Register of Convicted Prisoners and the Release Diary, as well as for any illegal detention of a prisoner that may result from neglect of this rule.

**PART II : CLASSIFICATION OF PRISONERS**

1. *Superintendent to verify if classification needs revision.*— Previous convictions, if any, will generally appear in the warrant. The Superintendent should however not be content with this information but should endeavour to ascertain from the Jail Officers, Jail guards and long term convicts, as well as from the records of his Jail, if the prisoner has previously been convicted. If he finds that the classification of the prisoners needs to be revised on the basis of the facts so revealed, he shall immediately move the authority concerned for revision of the classification.

Before transferring prisoners to other prisons, the Superintendent of the Prison concerned shall necessarily consult the Deputy Inspector General of Prisons (Regional) by an express Telegram or by Telephone so that the latter may allot a prison where extra accommodation is available. In the meanwhile, the Superintendent shall take action as indicated in Rule 17 of the Maharashtra Prisons (Prison Buildings and Sanitary Arrangements Rules, 1964) utilising worksheds as sleeping wards and accommodate the excess prisoners in temporary huts and/or tents.

4. When a delinquent child or adolescent offender is admitted as an undertrial prisoner and the trial of his case appears to the Superintendent of the Prison to have been unduly prolonged, he shall report such delay to the Sessions Judge or District Magistrate as the case may be with a view to expedite the trial.

5. Political Prisoners .—Where any prisoner claims any privileges not granted to any undertrial or convicted prisoner on the ground that he is a political prisoner, the Superintendent shall as soon as may be practicable, report his case to “the State Government through the Inspector General, for orders.

When a prisoner is sentenced to imprisonment under two separate warrants, of which the second alone awards any period of solitary confinement, the solitary confinement shall not be executed during the duration of the first term of imprisonment. Similarly, if the term of solitary confinement under one warrant cannot for any reason be completed during the term of imprisonment awarded by that warrant, the balance shall not be carried out during any subsequent term of imprisonment under another warrant. The execution of a sentence of solitary confinement shall not be postponed on account of appeal.

3. No prisoner shall undergo a punishment of cellular or separate confinement within seven days before or after a period of judicial solitary confinement.

### *RELEASE OF PRISONERS*

9. On receipt of a warrant of discharge or order of revision or bail directing the release of an under-trial prisoner, he shall at once be released (unless the order is received after the wards are locked up for the night, in which case he shall be released immediately after the wards are opened next morning), and the order of release shall be returned to the Court which issued it, with an endorsement by the Superintendent certifying that the order of release has been carried out. Any property which was taken possession of under the rules shall be made over to the prisoner.

Release of under-trial prisoners.

\*—\*Inserted by Government Notification, Home Department No. RJM-0172/15 (XXVII) XVI, dated 13th March 1973.

Method of  
calculating date of  
release of  
prisoner.

10. (i) The duration of a prisoner's sentence shall be calculated by the year or month unless stated in days. When a prisoner's sentence consists of so many months, with or without fraction of a month, the date of release shall be calculated by adding the number of months to the date of the sentence, the fraction, if any, being reduced to days. For this purpose one month shall be deemed as equivalent to 30 days.

*Example.*—A prisoner is sentenced to one and half month's imprisonment on the 2nd February. The date of his release will be the 16th March.

(ii) If the month in which the sentence of a prisoner expires has no date corresponding to the date of sentence, the last day of the said month shall be taken as the day of expiry of sentence.

*Example.*—A prisoner sentenced on the 30th or 31st January to one month's imprisonment, would be entitled to release on the 28th February and on the 29th February in case of a leap year.

(iii) In calculating the date of expiry of a sentence of imprisonment, the day on which the sentence was passed and the day of release shall both be included and considered as days of imprisonment. Similarly if a convict is released on bail pending appeal or if he escapes, the day on which he is readmitted or recaptured shall both be counted as days of imprisonment.

(iv) A prisoner sentenced to one day's imprisonment must be released on the same day, but if he is sentenced to imprisonment for 24 hours he must be kept in imprisonment for that period.

(v) In calculating the date of release of a prisoner the number of days of remission earned by him shall be converted into years, months and days, at the rate of 30 days to each month and 12 months a year and the remission so earned shall then be deducted from the substantive sentence by subtracting years first then months and then the days.

(vi) Where a prisoner has earned such remission as entitles him to release, the Superintendent shall release him.

(vii) Where a prisoner is released under sub-rule (6), the total amount of remission earned by him shall be endorsed on his warrant, and the endorsement shall be signed by the Superintendent.

Calculation of  
date of release of  
prisoner released  
on bail.

11. To calculate the date of release of a prisoner who after conviction is released on bail and is afterwards remanded to prison to serve out his sentence or who escapes and is at large for a certain period and is then recaptured, or who is released on parole and surrenders himself to any prison authority to

Undergo the remaining term of his sentence, the number of day the prisoner is on bail or at large (exclusive of the days of release and committal into custody or of escape and recapture shall be added to the term of his sentence; the date on which the sum of these periods will elapse, counting from the date of conviction shall be the date of expiration of sentence.

*Note.*—(a) A prisoner released on bail in court on the day he is sentenced without having been sent to prison shall not be deemed to have served any part of his sentence.

(b) If the sentence of any prisoner is suspended and the prisoner is kept in confinement, the period of suspension shall reckon as part of his sentence.

(c) The rule does not apply to a prisoner detained until such time as he may furnish security under the provision of Chapter VIII of the Code of Criminal Procedure, 1898. Such a prisoner cannot be legally detained after the expiration of the period specified in the warrant however short a time he may actually have spent in prison.

(d) In the case of an escaped prisoner subsequently arrested in connection with another offence any period spent on that account in Police Custody or as an undertrial prisoner shall not be reckoned as imprisonment under the original sentence.

(e) Convicted prisoners from other States removed to a Jail in this State to answer charges or to give evidence should be treated as convicted prisoners and not as undertrial prisoners.

(f) Convicted prisoners removed from a prison in the State of Maharashtra to a prison in another State under the provisions of the Transfer of Prisoners Act, 1950 (XXIX of 1950), would be deemed to be undergoing their sentences during their absence from the prison in the State of Maharashtra.

(g) The period spent out by a prisoner released on furlough will reckon towards the term of sentence in accordance with the provisions of the Prisons (Bombay) Furlough and Parole Rules, 1959 ;

(h) Day on which a prisoner is released on parole and the day on which the prisoner comes back to the prison will be counted towards sentence.

12. Date of release shall be recalculated and fixed in case of prisoners released on parole after taking into account the period for which the prisoner was out on parole.

Calculation of date of release of prisoners released on parole.

Calculation of date of release of escaped prisoners.

13. If a prisoner escapes, and on his recapture is awarded any fresh sentence for escape, the date of release shall be recalculated in accordance with the provisions of Section 396 of the Code of Criminal Procedure, 1898, and the date of release fixed accordingly.

Prisoners whose release dates fall on Sundays and Holidays.

14. A prisoner whose date of release falls on a Sunday or Holidays as may be prescribed by Government shall be released on the preceding day and an entry to that effect shall be made in the Register as in Form No. III.

Before release a prisoner to be produced before Medical Officer and Senior Jailor.

15. On the day before the date on which a prisoner becomes entitled to release, he shall be produced before the Medical Officer and his state of health and weight duly recorded in Health Register in Form No. IV. On the day of release, the Jailor in-charge of Judicial work shall place him before the Senior Jailor together with his warrant, history ticket, Registers in Forms Nos. I, II, V, VI, VII and VIII, his clothing and other property.

All dues of prisoner to be released shall be settled and his private property returned to him.

16. The Senior Jailor shall satisfy himself that the prisoner bears the identification marks recorded in Register in Form No. III that the entries in the warrant tally with those in the Register and the sentence passed on the prisoner by the Court has been duly executed. The endorsements of release in the relevant registers shall be signed by both the Senior Jailor and the Jailor in charge of Judicial work. Private property (including jewellery) and the amount due to the prisoner under his respective accounts (i. e. private cash, motor-fare, subsistence money and wages) shall be paid to him in the presence of the Senior Jailor after obtaining his acknowledgment of receipt in Registers as in Form Nos. V, VI, VII and IX. The prisoner shall be released at the main gate. The Senior Jailor shall be responsible for seeing that the prisoner does actually receive his dues and property correctly and that his complaints, if any, on this score shall be attended to immediately.

Prisoners suffering from contagious or dangerous diseases not to be discharged.

17. (i) Prisoners suffering from any contagious or dangerous disease may, on release, be removed to the nearest Government hospital for further treatment and may be kept in such hospital until the Medical Officer considers that he can be safely discharged from the hospital.

(ii) Prisoners who are seriously ill and are not in a condition to be moved from the prison hospital to the nearest Government hospital may, on release, be detained in the prison hospital, unless consent is declined, till such time as they can be safely removed or discharged.

18. The discharge of a prisoner shall usually take place in the forenoon except when his prison kit is dirty in which case he may be detained till it is washed or till 5 p. m., whichever is earlier.
19. Notwithstanding anything contained in the preceding rule, the Superintendent may, having regard to any special reasons given by the District Magistrate in that behalf, release any prisoner between the hours of 6 p. m. and 7 a. m.
20. After the prisoner is released, the warrant shall at once be returned to the Court which issued it, with an endorsement certifying the manner in which the sentence has been executed and the reason, if any, such remissions, pardon, reversal of sentence (with the number and date of the order of Government or authority of the Court for the same) why the prisoner has been discharged from the custody before the execution thereof.
21. Where a prisoner has to undergo two or more sentences under separate warrants and if all the warrants are not issued by the same Court, at the expiry of each sentence the warrant relating to it shall be separately endorsed and returned to the Court. In such case the endorsement shall state that the prisoner is retained in prison to undergo sentence under warrant of another Court.
22. The Superintendent shall furnish nominal roll of conditionally released prisoners to the Superintendent of Police of the District of which the released prisoner is a native and in the case of Greater Bombay, Pune and Nagpur to the Commissioners of Police, concerned, where a prisoner, coming under the Finger Print Rules is to be released conditionally, his finger impression shall first be taken by a duly qualified Police Operator before he is allowed to leave the prison.
23. (i) All rules relating to execution of the orders of the court and release of prisoners in force in any part of the State before the endorsement of these rules which correspond to these rules shall stand repealed.
- (ii) For the avoidance of any doubt, it is hereby declared that nothing in sub-rule (1) shall apply to the Maharashtra Prisons (Prisoners Sentenced to Death) Rules, 1971.

Any warrant containing an order on the subject which appears to be illegal shall be referred to the Inspector General of Prisons, for orders.

18. One month of judicial solitary confinement shall be regarded as equivalent to thirty days.

Sequence of  
sentences when  
they include both  
rigorous  
imprisonment and  
life imprisonment.

19. If a warrant directs that any person shall undergo two or more sentences on separate charges such sentences when consisting of imprisonment or life imprisonment shall commence, the one after the expiration of the other, in such order as the Court may direct, unless the Court directs that such punishments shall run concurrently (Section 35, Criminal Procedure Code). When any person already undergoing a sentence of imprisonment, or life imprisonment is sentenced to imprisonment, or life imprisonment, the sentences shall be served, the one after the expiration of the other, in order of award, unless the Court awarding a sentence of life imprisonment shall direct that such sentence of life imprisonment shall take effect immediately (Criminal Procedure Code, Section 397), or unless the prisoner is an escaped convict, in which case the provisions of Section 396 of the Criminal Procedure Code will apply.

(ii) Sentences imposed in default of payment of fine cannot run concurrently. They shall always be carried out on the expiration of substantive sentence or sentences whether or not the latter are annexed to the sentences in lieu of payment of fine.

Date of  
commencement of  
sentence.

20. Subject to the provisions of the last preceding rule, the period of imprisonment to be undergone under the sentence of a Criminal Court shall be calculated from the date on which the sentence was passed.

Two or more  
sentences to be  
run consecutively  
unless otherwise  
directed.

21. When prisoner is sentenced to two or more sentences the date of release shall in the absence of any instructions from the Convicting Court, be calculated as though the sum of the terms was awarded in one sentence.

Prisoner to serve  
aggregate terms of  
sentences.

22. In case of doubt in regard to the order in which sentences shall take effect under Rule 19 the instructions of the Court imposing the latest sentences shall be taken. In whatever order the Sentences are served, a

sentences are served, a prisoner is liable to serve the aggregate of the terms of all his sentences, provided that under no circumstances shall a prisoner be detained in jail beyond the period indicated by the terms of the warrant of commitment.

23. When a person is sentenced to imprisonment that sentence begins to operate at once even if the prisoner is at the same time under an order of detention for failure to give security under the Criminal Procedure Code. The sentence imposed in default of payment of fine shall take effect after the expiry of sentence for failure to give security.

Detention of prisoners for failure to give security under the Criminal Procedure Code.

This covers that class of cases where a substantive sentence is passed after an order under Section 123 of Criminal Procedure Code for an offence committed prior to the date of the order passed under Section 123 Criminal Procedure Code.

If, however, the offence was committed subsequent to the date of the order under Section 123, Criminal Procedure Code, the execution of the sentence for that offence must be postponed and the case of the prisoner referred to the Sessions Judge or District Magistrate as the case may be as required under note (ii) to the next Rule.

*Note.*— Detention for failure to give security is not a substantive sentence of imprisonment within the meaning of Section 397, Criminal Procedure Code.

24. If a prisoner, who is detained until such time as he may furnish security under the provisions of Chapter VIII of the Code of Criminal Procedure, is later sentenced to a further term of imprisonment for any other offence committed prior to the date of order under Section 123, Criminal Procedure Code, the sentence of imprisonment awarded in default of furnishing security shall run concurrently with the subsequent sentence of imprisonment on conviction.

Sentence in default of furnishing security and additional sentence of imprisonment.

*Note* :—(i) If a prisoner, who is detained for failing to furnish security under Sections 106 and 108 of the Criminal Procedure Code, expresses to the Superintendent or Jailor his willingness to furnish the security required of him, the Superintendent shall at once communicate with the Magistrate with a view to the necessary action being taken under Section 123 of the Criminal Procedure Code.

(ii) Where a prisoner, who is already undergoing a substantive sentence of imprisonment, has been ordered to undergo a further sentence in default

of furnishing security for keeping peace or good behaviour under Chapter VIII of the Code of Criminal Procedure, 1898 then—

(a) If such order has been passed by a Judicial Magistrate, the order should be brought to the notice of the Sessions Judge to whom such Judicial Magistrate is subordinate ; and

(b) If such order has been passed by an Executive Magistrate, the order should be brought to the notice of the District Magistrate to whom such Executive Magistrate is subordinate for such action as the Sessions Judge or the District Magistrate, as the case may be, may deem necessary under Section 435 of the said Code.

(iii) Sentences awarded under Section 52 of the Prisons Act commence on the expiry of imprisonment in default of furnishing security or from the date of receipt at the Prison of an intimation that the Security has been furnished.

(iv) If a foreigner apprehended and detained under Section 4 of Foreigners' Act, 1946, is sentenced to a term of sentence, the period of detention under Section 4 of the Foreigners' Act will be exclusive of and in addition to the period of imprisonment passed upon him.

(v) The maximum period of detention ordered in two consecutive Chapter Cases (i. e. under Section 123, Criminal Procedure Code) cannot exceed 3 years. Any case in which this is exceeded should be reported to the High Court, Bombay for action with an appeal petition from the Convict.

(vi) An accused person falling under Section 123 (2) Criminal Procedure Code, must be treated as an undertrial prisoner until his case has been decided by the Sessions Court or High Court.

(vii) The period mentioned in the proviso to Section 123 (3), Criminal Procedure Code, must be counted from the date of the order of the Sessions Judge or High Court unless the latter specifically directs in the warrant that it is to be counted from some other date. In such a case the directions of the Superior Court must be complied with.

(viii) In the case of convicts committed to Jail under Chapter VIII, Criminal Procedure Code, the amount of Bond and Sureties should be recorded in Registration No. 3 as follows :—

Section 112, Criminal Procedure Code.

Rs. 100 bond.

Rs. 50 each, 2 Sureties.

25. Should a Court direct under Section 123 (4) of the Criminal Procedure Code that the Superintendent or other officer in charge

Release of  
prisoners detained  
in default of  
furnishing  
securities.

of the Jail, shall release a prisoner upon his furnishing securities to be approved by the Superintendent, the Superintendent shall call on the prisoner to furnish such securities. The Superintendent, however, is not bound to accept any securities that are produced, and, if he is not personally acquainted with the sureties, or is otherwise not fully satisfied as to the sufficiency, he shall not accept them but shall refer to the nearest Magistrate or to any Magistrate to whom reference is desired, to make enquiries as to the sufficiency of the sureties produced.

*Note* : For form of bond *see* Schedule V annexed to the Criminal Procedure Code.

Sentences how and when to take effect.

26. When an Appellate Court simply modifies a sentence passed by a lower Court without change of section, or when the Appellate Court passes a new sentence by changing the conviction section or the punishment section or otherwise, the sentence finally passed shall count, unless otherwise specially directed, from the first day of imprisonment under the original sentence.

27. When a prisoner is undergoing more than one sentence and the first sentence is annulled on appeal, the second sentence shall take effect from its own date.

Sentences how and when to take effect.

28. When a fine or portion of a fine in default of which an offender is undergoing imprisonment is realised the Court which imposed the fine will send intimation to the Superintendent of the Jail in order to ensure the due release of the offender. The intimation will be in the prescribed form and receipt coupons, the latter of which will be signed and returned to the Court by the Superintendent. When in addition to imprisonment, a person is sentenced to fine and alternative imprisonment, and the fine is realized before the prisoner is despatched to the Jail, the intimation of realization will be attached to the warrant by the Court and the receipt coupon will be detached and returned to the Court after signature by the Superintendent.

Action after realising fines.

*Note* : If the fine is paid before the transfer of a prisoner from the subsidiary Jail in which he first confined to another Jail, the fine realization statement should be sent to the subsidiary Jail.

29. A month shall be deemed equivalent to 30 days.

30. \* \_\_\_\_\_ \*

Definition of month for the purposes of calculating duration of sentences.

31. If a prisoner who is sentenced to a fine and in default to imprisonment for a certain number of months, pays any part of

Calculation of date of release in part payment of fine.

\*—\* Deleted by Government Resolution, Home Department, No. RJM 0174/6-XVI, dated 13th May 1974.

his fine, the remission for the payment shall be calculated in calendar months, and not in days. Any fraction of a month obtained by such calculation shall be reduced to days. A fraction of a day shall not be counted.

*Illustration* : If a prisoner be sentenced on the 15th July to six months' imprisonment and to pay a fine of Rs. 300, or in default of payment to serve six months' further imprisonment, and he pays Rs. 63, the calculation shall be made as follows:—

$$\text{Rs. } \frac{63}{300} \times 6 \text{ months} = \frac{378}{300} = 1 \frac{26}{100} \text{ months.}$$

The date of release, deducting one month, would fall on the 14th June. As the month preceding June has 31 days the  $\frac{26}{100}$  of a month will be calculated on 31 days.

$$\frac{26}{100} \times 31 = \frac{806}{100} = 8 \frac{6}{100} \text{ days.}$$

Here remission for payment of Rs. 63 is one month and eight days.

If the prisoner has been sentenced on the 15th June instead of 15th July, the calculation of the  $\frac{26}{100}$  of a month would have to be made on a 30 days' month because from any date in April to the same date in May is 30 days, as follows:—

$$\frac{26}{100} \times 30 = \frac{78}{10} = 7 \frac{8}{10} \text{ days. so that in}$$

that case the remission would be only 1 month and 7 days.

Intimation of  
Recovery of fines  
by Court.

32. (i) When fines inflicted on prisoners are recovered by a Court, intimation of the same will be received by the Superintendent from the Court in Form (G) at page 208 of the High Court Criminal Order Book (1947 Edition).

(ii) When by the terms of warrant under which a prisoner is confined, non-payment of fine entails detention beyond the date on which he would be otherwise released and no intimation of the recovery of the fine has been received, the Senior Jailor shall one month before the date of release above referred to cause enquiry to be made of the Magistrate concerned as to whether the fine has been paid or not in whole or in part.

Payment of fine to  
be noted in the  
register etc.

33. When intimation of payment of fines are received from the Courts, the prisoner concerned shall be informed thereof and the payment shall be duly noted in the register and on the prisoner's History Ticket. The entries in the register and on the warrants and History Ticket shall be signed by the Superintendent and the Senior Jailor. A separate Inward Register for the receipt of fine intimation should be maintained.

34. No action shall be taken on fine intimations which do not bear the seal of the Court but it should be returned, to the Court for affixing the seal. Likewise, no action shall be taken on telegrams intimating the recovery of a fine or any portion of a fine. When intimation of payment of the fine of a prisoner is received from a Police Officer, it shall be returned to that Officer with a request that it may be forwarded through the Sentencing Court. Intimation of payment of fines.
35. In all prisons a Fine Statement Book shall be maintained in the prescribed form. Each book will contain one hundred forms, and supplies of the same may be had from the Treasury Officer or the Government Central Press, Bombay. Fine Statement Book.
36. If a payment of a fine or a portion of a fine imposed on a prisoner as a sentence or part of sentence by a Judicial Magistrate, is tendered at the Prison, it shall be received by the Superintendent or the Senior Jailor between the hours of 8 a. m. and 5 p. m. and a receipt in Jail Form No. 75 issued. On receipt of such a fine the prisoner shall receive such remissions of sentence as the amount of payment made in his behalf will entitle him to; and acknowledgment shall be sent at once by the Prison Authorities to the Sentencing Court. Payment of fines.
37. All cash received in payment of fine shall be accounted for in Register No. 16-Prison Cash Book. Accounts of fines
38. In the case of a prisoner sentenced to imprisonment in lieu of fine being transferred from one Jail to another, when intimation of the realization of the fine or a portion of it is received from the Court, it will be the duty of the Senior Jailor of the Jail receiving the intimation to forward the intimation coupon and the receipt coupon (for the acknowledgment of the intimation) to the Superintendent of the Jail to which the prisoner has been transferred, under a registered cover. This should be done under covering docket, in which the date of the transfer of the prisoner should be specified in order to ensure proper identification. The Superintendent of the latter Jail will then, by return post, acknowledge receipt of the intimation to the original Jail, and forward the receipt coupon to the Magistrate by whom it was issued, retaining the intimation coupon in his own Jail. Receipt and realisation of fine.
39. If a prisoner sentenced to a term of imprisonment in default of payment of fine is also either at the same time or subsequently, sentenced to another term or to other terms of imprisonment, imprisonment in default of payment of fine shall be kept in abeyance till the expiration of all the Imprisonment in default of Payment of fine Exception.

substantive sentences of imprisonment and shall be annulled wholly or partially by the payment of the fine in whole or in part, before that period or so long as imprisonment continues.

*Illustration* : A prisoner is sentenced on the 9th June 1970 to two years' rigorous imprisonment and a fine of Rs. 5, or in default six months' rigorous imprisonment; on the 17th July of the same year he is sentenced on another account to an additional imprisonment for 18 months; and on the 6th October 1971, he is sentenced on another charge to an additional imprisonment for two years. The sentence of six months' imprisonment in default of the payment of fine Rs. 5 should begin from the 9th December 1975 (the date of expiration of all the substantive sentences of imprisonment being the 8th December), and shall be annulled wholly or partially by the payment of the fine, in whole or in part, before that period, or so long as the imprisonment continues.

*Note* :—This rule covers the case of a prisoner whose first sentence of imprisonment is only in default of payment of fine. The substantive sentences of imprisonment subsequently passed shall count from the date of the first sentence, and the imprisonment in default of payment of fine shall take effect last, although a portion of it may have been already served when the substantive sentences were awarded, unless the imprisonment is of a different denomination to that of the substantive sentences, in which case the imprisonment in default of payment of fine shall be completed before the substantive sentence of imprisonment shall take effect.

Additional  
sentence on an  
escaped convict.

40. When an additional sentence of imprisonment, or life imprisonment is passed on an escaped convict who has been recaptured, such sentence shall take effect according to the following rules :—

If the new sentence is severer in its quality than the sentence such convict was undergoing when he escaped, the new sentence shall take effect immediately, and the unexpired portion of the sentence he was undergoing when he escaped shall be served subsequently. When the new sentence is not severer, it shall take effect after he has served the portion of his original sentence which at the time of his escape had remained unexpired.

*Explanations* :—(a) A sentence of life imprisonment penal servitude is severer than one of imprisonment.

(b) A sentence of imprisonment with solitary confinement is severer than imprisonment without solitary confinement.

(c) A sentence of rigorous imprisonment is severer than one of simple imprisonment with or without solitary confinement.

41. When a conditionally released prisoner is re-admitted within two years owing to an infringement of the terms on which he was released the unexpired portion of his sentence should be carried out without waiting for the receipt of Government Orders which should, however, be applied for immediately on admission of the prisoner through the Inspector General.

LUNATICS
*SECTION II : NON-STATUTORY RULES*

1. When under Section 16 (1) of the Indian Lunacy Act, 1912 (IV of 1912), a Magistrate authorises the temporary detention of an alleged non-criminal lunatic in order to enable the Medical Officer to determine whether he is a person in respect of whom a medical certificate may be properly given he shall, at the time of such authorization, or as soon after as may be practicable, send to the Medical Officer a statement of the particulars prescribed in Form No. I so far as they have been ascertained, together with an abstract of any information which may have been recorded by himself or acquired in the course of investigation.

Rules governing  
supposed lunatics  
under  
observation  
under the Indian  
Lunacy Act,  
1912.  
Rules

2. The following rules regulating the detention, care and treatment of supposed lunatics under observation under the provisions of the Indian Lunacy Act, 1912 (IV of 1912) have been made by Government under Section 91 (1) of that Act.

1. A person ordered to be detained under Section 16 of the Indian Lunacy Act 1912 in any district where there is a Mental Hospital shall be sent to such Hospital.

2. If there is no Mental Hospital within the District the supposed lunatic shall be sent to a Jail, lockup, hospital or dispensary as may seem most appropriate to the Magistrate or in Bombay the Commissioner of Police, regard being had to the supposed lunatic's apparent condition and the means of accommodation and guarding and the facilities of skilled observation available in each case.

(3) The Magistrate or in Bombay the Commissioner of Police may in his discretion make special provision for the guarding of the supposed lunatic by Police Officers.

3. Under Section 16 of the Indian Lunacy Act 1912 the maximum period during which a person arrested under Section 13 can be detained for observation is thirty days. Immediately on the expiry of this period the Superintendent shall address the Court under whose warrant the person is detained, pointing out that the maximum authorised period of detention has expired and requesting that an order for the release of the person detained or for his transfer to the Mental Hospital be furnished. If by the end of seven days more, the Superintendent has not received the orders of the Court to release the person detained or to transfer him to the Mental Hospital, he shall report the matter to the Deputy Inspector General (Regional).

Maintenance of  
certain records in  
respect of non-  
criminal lunatics

4. In every jail where non-criminal lunatics are confined there shall be maintained :—

(a) In respect of all lunatics so confined a nominal roll in Form No. II.

(b) In respect of each lunatic so confined a medical history sheet in Form No. III wherein the events in the medical history of the lunatic together with recorded opinions as to his mental condition with dates shall be entered.

Non-criminal  
lunatics to be  
excluded from all  
statistical returns

5. Non-criminal lunatics shall be entirely excluded from all statistical returns relating to jails, and the cost of their maintenance and clothing (if supplied) and transfer to the Mental Hospital shall be recovered from the court under whose authority they were received.

6. Under Section 471 (2) of the Code of Criminal Procedure the State Government has empowered Superintendents of Prisons to discharge all the functions imposed on the Inspector General by the Sections 473 or 474 of the Code.

Superintendents  
to discharge  
functions of  
Inspector  
General under  
Sections 473 and  
474, Criminal  
Procedure Code

7. Sub-Section (2) of Section 30 of the Prisoners Act, provides that the time during which a prisoner is confined in a lunatic asylum under sub-Section (1) of Section 30 of the Prisoners Act, shall be reckoned as part of the term of detention or imprisonment which he may have been ordered or sentenced by the Court to undergo and it is clear from these provisions that the transfer of a prisoner to a mental hospital and his retransfer to a prison do not affect the period of imprisonment which he has to undergo and the total period spent in the mental hospital and the prison has to be taken into account and the prisoner has to be released on expiry of that period and, therefore, the question of specifying the period of probation does not arise. It is, therefore, not necessary to issue a fresh warrant in such cases. The prisoner is remanded to the prison under a warrant issued by Government under Section 30 (2) of the Prisoners Act and the original warrant of the Court is the authority for the detention of the Prisoner in Jail. Therefore, the original warrant which is not fully executed and which has been returned to the Court under rule 11 of the Maharashtra Prisons (Lunatics) Rules, 1965, may be called for by the Jail authorities and this original warrant read with the warrant issued by Government under Section 30 (2) of the Prisoners Act will be the authority for the detention of the prisoner in Jail.

Rules 12 and 13 of the Maharashtra Prisons (Lunatics) Rules, 1965 and rule 8 apply to recovered lunatics remanded from a Mental Hospital to a Prison with a view to ultimate release and have no application to lunatic prisoners.

8. Particulars regarding recovered criminal lunatics shall be shown in the registers in which convicts are usually accounted for, but they must be omitted from the figures appearing in the monthly and annual judicial statements. A note however, should be made at the foot of these returns showing the number of this class of prisoners in confinement.

Accounting of  
recovered  
criminal lunatics
